Allowable Subject Matter

16. Claims 1-3, 5-7, 11-14, 25-29, 31, and 32 are allowed.
17. The following is an examiner's statement of reasons for allowance:
18. As per independent Claims 1, 11, 31, and 32, the prior art does not teach or suggest a computer implemented method, method, or computer program product for transacting an intellectual property service in connection with the filing of documents and/or payment of fees for intellectual property matters relative to two or more target jurisdictions, the method

comprising: presenting a user with two or more target jurisdictions and one or more respective associates for each of at least a portion of said target jurisdictions, and the one or more fees associates with a particular one or ones of the intellectual property services further particularized by target jurisdiction and/or said one or more respective associates; determining one or more intellectual property matters; providing, responsive to determination, a user with information representative of one or more intellectual property matters and one or more fees associated therewith wherein the fees include one or more of: official fees, and service fees; and selecting, responsive to the user, one or more of the intellectual property services for one or more of the intellectual property matters, and automatically initiating, by the computer, responsive to the user, performance of the selected one or more intellectual property services for one or more of the intellectual property matters.

19. BPM (Brown, Pinnisi & Michaels, PC (www.lightlink.com/bbm, retrieved from Internet Archive Wayback Machine <www.archive.org>, date range: 2/24/1998-2/18/1999) discloses a computer implemented method for transacting an intellectual property service in connection with the filing of documents and/or payment of fees for intellectual property matters, the method comprising: providing a user with information representative of one or more intellectual property matters (form of intellectual property protection); providing a user with information representative of one or more intellectual property services (search, filing, maintenance fees) corresponding to the one or more particular intellectual property matters and one or more fees associated therewith wherein the fees include one or more of: official fees, and service fees (pgs. 10-20).

20. BPM fails to expressly disclose transacting an intellectual property service in connection with the filing of documents and/or payment of fees for intellectual property matters relative to two or more target jurisdictions as disclosed in the independent claims.
21. BPM also fails to disclose presenting a user with two or more target jurisdictions and one or more respective associates for each of at least a portion of said target jurisdictions, and the one or more fees associates with a particular one or ones of the intellectual property services further particularized by target jurisdiction and/or said one or more respective associates; determining one or more intellectual property matters; providing, responsive to determination, a user with information representative of one or more intellectual property matters and one or more fees associated therewith wherein the fees include one or more of: official fees, and service fees; and selecting, responsive to the user, one or more of the intellectual property services for one or more of the intellectual property matters, and automatically initiating, by the computer, responsive to the user, performance of the selected one or more intellectual property services for one or more of the intellectual property matters, as described in the independent Claims.
22. InventNet discloses the registration and selection of one or more target jurisdictions/agents (pg. 7-9 and 11), but fails to teach presenting a user with one or more fees associates with a particular one or ones of the intellectual property services further particularized by target jurisdiction and/or said one or more respective associates; determining one or more intellectual property matters; providing, responsive to determination, a user with information representative of one or more intellectual property matters and one or more fees associated therewith wherein the fees include one or more of: official fees, and service fees; and

selecting, responsive to the user, one or more of the intellectual property services for one or more of the intellectual property matters, and automatically initiating, by the computer, responsive to the user, performance of the selected one or more intellectual property services for one or more of the intellectual property matters.

23. The remaining dependent Claims 2-3, 5-7, 12-14, and 25-29 are considered allowable, as they are dependent and based off of an allowable independent claim.
24. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
